Whistleblower Hotline

Seen something  
that doesn't seem right?

## Speak Up.

Misconduct or unethical behaviour is damaging and can have far reaching implications to our people, business operations and reputation.

BaptistCare has a zero tolerance for misconduct and unethical behaviour which can come in the form of:

- Theft
- Defrauding the business or our clients
- Actions that place people at risk of harm
- Violent behaviours
- Intoxication and substance abuse
- Bullying or discrimination

If you have seen any of these or other unethical behaviours, do the right thing and speak up. You can speak in confidence with your manager, Human Resources (HR) Consultant or alternatively you can call our independent Whistleblower Hotline.

The Whistleblower hotline is a free independent hotline run by PricewaterhouseCoopers (PwC). This hotline has been established to enable the confidential reporting of unethical and sensitive issues at any time (24 hours a day, 7 days a week).
